I am currently in my third year studying Landscape Architecture at Unitec. I am very interested in Tactical Urbanism and City 'pop-up' planning. I have been inspired by nature since a young age and have taken a keen interest in the landscape - particularly in horticulture. I am a very hard worker that is motivated by challenges and opportunities to further my experience in design. Collaborative work is a strength of mine but I am also comfortable working independently on projects. Through design I enjoy solving issues and have a keen interest in ecological development and management. I carry myself with pride and approaches all tasks with an enthusiasm and determination.

Key Skills:

- Very good at managing time and a very hard worker that strives to succeed the best outcome of work.
- Work great in a group situation willing to listening to everyone's points. Very easy going and easy to approach in all situations. Along with being able to give good advice that is thoughtful and well thought through before speaking about the issue.
- Great creative skills and thinking out of the box for ideas. Very practical and a hands on worker, finding it easier to draw an idea on a piece of paper and being able to explain it well.
- Great with customers and clients, being able to adapt to a person needs easily and quickly so that they get the outcome that they wish for.
- Have a great understanding of Photoshop, InDesign, Sketchup, ArcGIS and Vectorworks

Key roles, responsibilities and qualifications:

- Volunteer Surf Life Saver
- Bronze and Silver Duke of Edinburgh award
- Grade 2 White Water Kayaking

- First Aid – Level 1
